**Review Med applies for URAC Utilization Review Accreditation,  
demonstrates high quality of operations**

**DALLAS – Aug. 15, 2005** – Review Med L.P. announced today that it is working with URAC, a Washington, D.C.-based health care accrediting organization, to gain utilization review accreditation. The company expects to receive URAC accreditation by end of year.

“We’ve worked hard to make our internal process as efficient and standardized as possible,” said Carol Lonidier, chief executive officer for Review Med. “By gaining accreditation, we will give our customers peace of mind knowing that we have met the high level of quality mandated by URAC. Certification isn’t required in our industry, but companies that are serious about quality will invest in earning it.”

Review Med expects to complete the accreditation process by December. URAC is a leader in the accreditation of health and managed care organizations. Founded in 1990, URAC currently offers more than 20 accreditation programs that span a broad spectrum of health care services. The URAC standards development process is consensus-driven, with hundreds of industry experts serving as volunteers to establish and revise appropriate industry benchmarks.

“By choosing to seek URAC utilization review accreditation, Review Med has displayed leadership through a commitment to quality and accountability,” said Garry Carneal, URAC president and chief executive officer.

Review Med is a Dallas-based medical cost containment firm that helps clients across the country to manage worker’s compensation claims and other employee health issues. Review Med’s services include disability management services, medical review services and medical bill audits, among others. Founded in 1997, Review Med is one of Texas’ largest providers of medical containment services, with personnel in Dallas, Austin, Houston and San Antonio.

URAC, an independent, nonprofit organization, is a leader in promoting healthcare quality through accreditation and certification programs. URAC’s standards keep pace with the rapid changes in the health care system and provide a mark of distinction for health care organizations to demonstrate their commitment to quality and accountability. Through its broad-

based governance structure and an inclusive standards development process, URAC ensures that all stakeholders are represented in setting meaningful standards for the health care industry. For more information, visit [www.uran.org](http://www.uran.org).
